Bench to Bedside: Drug Discovery in Neuroscience - Ricardo Dolmetsch - Bench to Bedside: Drug

Discovery in Neuroscience - Ricardo Dolmetsch by Science Communication Lab 5,986 views 6 years ago 44 minutes - Using neurons made from the stem cells of children with neurodevelopmental **diseases**, to make medicines to treat incurable ...

Intro

Why is drug discovery in neuroscience so hard?

Start with the patient

How do mutations in genes lead to disease?

Psychiatric disease in mice

Generating a collection of induced pluripotent stem cells

Generating neurons from induced pluripotent stem cells

Physiological properties of PSC derived neurons

Generating brain organoids from patient stem cells

Automating the iPSC platform

Spinal Muscular Atrophy

LMI increases SMN2 levels in SMA iPSC-derived neurons

LMI increases SMA protein in the mouse brain

Timothy Syndrome (TS)

Chemical screen for agents that reverse TS dendritic phenotype

Cardiomyocytes from TS patients have prolonged action potentials

Phelan McDermid Syndrome

Akt signaling is reduced in PMDS neurons

We need to improve our clinical trials

The Neuroscience of Addiction - with Marc Lewis - The Neuroscience of Addiction - with Marc Lewis by The Royal Institution 528,230 views 7 years ago 1 hour - In recent decades doctors have branded addiction a brain **disease**, and treated it as such. But in this riveting and provocative talk, ...

Intro

Addiction defined as a brain disease

Reinterpreting the neural data...

Addiction is really a kind of skill... ...the addict's brain learns to efficiently identify and aim behaviour

Behavioural addictions change the brain in almost exactly the same way as substance addictions

Cycle of brain activation

2. Now Appeal

3. Ego fatigue

Just say \"no\"?

In sum: brain change with addiction

The disease model of addiction isn't just wrong...

Why the disease model fails addicts

So how do we help addicts feel empowered?
