The Exodus Activity Book

Our Bible Fun Factory Lesson Plans are \"the essentials\". The lessons that every single Christian child between 4-12 needs to be taught. In this series of five lessons, we focus on Moses as he grows into a man of God. We first meet Moses as a young man, who like many of us, lacks confidence to do the things God tells him to do. We learn through his early years how to follow God's voice. When God uses Moses to part the Red Sea, we see that God is capable of anything. Finally, as God gives Moses the Ten Commandments, we see that God has established right from wrong, and we should keep his commandments in our hearts. These lessons bring students closer to God by watching Him create miracles and show us His nature. Lesson 1: Moses and the Burning Bush Lesson 2: Following God's Voice Lesson 3: Moses and the Red Sea Lesson 4: Bread from Heaven Lesson 5: Moses Gets the Ten Commandments We have 3 core beliefs when we create Bible Lesson Plans: 1) They should be EASY for the teacher to teach. 2) They should be FUN for the child. 3) They should actually TEACH the child bedrock principles of the Christian Faith and the Bible.

----- Each of the Lessons Include: -Materials List (Don't worry, nearly everything can be gathered up at a moments notice from your own house. For example, you might need to grab a big spoon) -Complete Lesson (Including our much loved \"teaching script\" that tells you exactly what to say!) -Scripture Reading (we put the scripture reading in the lesson, to make it easy!) -2 Games (Kids LOVE games, each game teaches an important element of the overall lesson and lets the kids get up out of their seat and move around. Typically one game is geared to young children 4-7 and another for the 8-12 year olds) -2 Intro Activities (These activities get the kids engaged in the lesson and help to fill the time as kids trickle in.) -2 Lesson Activities (These activities vary from object lessons, crafts, treasure hunts, and more) -Closing Prayer (Our closing prayers are each designed to leave the kids with a positive message and reminder of the lesson). ----- Class Length: The lessons are designed to run for one hour, but can easily be expanded to cover more time if needed. Age Level: The lessons include age-appropriate activities, discussion, and questions for children ages 4-12. Equally effective with mixed age groups or single age classes. Prep Time: Each lesson was designed to be taught after only 5-10 minutes of prep time. You don't need to go around collecting craft materials or spending an hour before class getting organized. You can literally \"glance & go\". Denomination: Our lessons can be used by churches of all denominations, as the topics covered are truly the foundation of Christian faith. In addition, any Bible translation can be used.

Moses and the Ten Plagues Activity Book

This exemplary study presents the hermeneutical principles and theological tendencies of Pseudo-Solomon's biblical interpretation of the Exodus story in the Wisdom of Solomon. Why and how did the author interpret the Exodus story? What is the socio-historical function of his interpretation? Through a comparison with corresponding biblical and extra-biblical texts, the text's dominant interpretative technique is seen to be the reshaping of the biblical story, as the author freely handles the biblical material, ignoring the literary intention or flow of the biblical accounts. Cheon argues that this interpretation was intended to provide hope and consolation for the Alexandrian Jewish community soon after a severe persecution during the reign of Gaius Caligula (37-41 CE).

Studies in the Book of Wisdom

“The book is at once accessible, evidence-based, practical and eminently readable...Readers will find in this book a treasury of learners' voices guiding us towards the goal of more effective learning in classrooms” - International Network for School Improvement
“This book promotes an ambitious and inspiring conception of meaningful pedagogy and works to applaud those teachers who are determined to reflect upon, enquire into, and then facilitate “effective learning”. A coherent and structured case is made for the primacy of “learning” over “work” - Learning & Teaching Update
This book addresses an important, and too seldom addressed issue: learning. Not teaching, not performance, not “work”: this book really is about learning,

what makes learning effective and how it may be promoted in classrooms. The authors take the context of the classroom seriously, not only because of its effects on teachers and pupils, but because classrooms are notorious as contexts which change little. Rather than providing yet more tips, they offer real thinking and evidence based on what we know about how classrooms change. Four major dimensions of promoting effective learning in classrooms are examined in depth: Active Learning; Collaborative Learning; Learner-driven Learning and Learning about Learning. Evidence from practising teachers in the form of case studies and examples, and evidence from international research in the form of useful ideas and frameworks is included.
